

## PARENTAL PERMISSION FOR MINORS

ACUC requirements so that a minor can take a diving course are those that are shown in the ACUC Standards Manual for the level of the desired course and also:

1. To have the minor's parent or legal guardian permission
2. That the candidate can carry all his/her diving equipment by him/herself on land without assistance
3. That the candidate is at least 12 years old

By means of my signature on this document I certify that I am the parent or legal guardian of:

Name of the minor:	
And that I authorize the minor to take the ACUC diver course of:	<input type="checkbox"/> Scuba Diver <input type="checkbox"/> Open Water Diver <input type="checkbox"/> Advanced Diver <input type="checkbox"/> Other (specify):

I understand that the legislation in certain countries, provinces, states or autonomic regions can impose legal restrictions for the learning and practice of scuba diving to minors.

Therefore, it is the responsibility of the minor's parent or legal guardian to be aware of any legislation regarding minors in the country, province or state where the course is being taught or where the minor will be diving

I have also been informed and I agree with, that if the applicant is considered a minor in the country where the course takes place, ACUC will issue the candidate, upon successful completion of the course, a certification card with the "Junior" word printed on it, meaning that the minor is only allowed to dive when accompanied by at least one adult certified diver.

Knowing these limitations, I agree to exempt all responsibility in this respect, to the ACUC instructor(s), the Center or entity where the course is conducted and to the ACUC Organisation.
